

2011 annual report from IMCO to the ISAF Windsurfing & Kiteboarding Committee

During 2011 IMCO have focused their efforts on working with Anders Bringdal International Co. to ensure the Mistral One Design is readily available, with production to meet demand ; servicing many groups of racers, national windsurfing associations and ISAF Member National Authorities.

The one design board, with new graphics, has begun rolling off the production line in Cobra. A new sail and rig is being distributed. Demand is particularly strong from the Asian windsurfing community, where the class is important in the development of the sport, and is used in major competitions, including the forthcoming Asian events:

Asian Sailing Championship - <http://www.sailing.org/regattainfo.php?rgtaid=14547>

Asian Beach Games - <http://www.sailing.org/regattainfo.php?rgtaid=14132>

It is also planned to be used in the 2014 Asian Games hosted by Korea.

This year the Asian Championships was held in Singapore, from 12th to 16th January; with Navin Singsart (THA) declared champion.

2012 Calendar - will be finalised soon; but the Asian Championship will take place in Pattaya, Thailand, from 21st >29th January.
