

The directors present their report and the financial statements for the year ended 31 December 2018

PRINCIPAL ACTIVITIES

The main aims of the association are to:

- Maintain the highest possible technical standards at international regattas;
- Build a worldwide corporate identity for the sport;
- Establish clear development policies;
- Act to strengthen the bonds between classes;
- Resolve conflicts of interest;
- Create a development fund using surplus class income;
- Establish a reputation for prudent financial management.

The association provides day to day administration for World Sailing member windsurfing classes on request and by mutual agreement. This includes receiving electronic registrations for class championships; the preparation of a unified calendar; updating and publishing class rules, championship rules, and other important class information; sending out a monthly electronic newsletter; and maintaining individual class websites and a joint website as a central news and information hub. During the year, the association assisted the classes to organise, in collaboration with local organisers and sanctioned tour organisers, the following events:

- ID2CA – European Championships – Piranja, Slovenia
- ISWC- Speed Windsurfing World Championships – Fuerteventura, Spain
- IFCA Slalom World Championships – Hvide Sande, Denmark
