# LAGOS – Parking and Camping

According to the new law of the City Hall and the Police, Motorhomes and Caravans, have to stop (overnight) in specific areas for them, like Camping Parks and Motorhome parks. Even for special events it will be forbidden to stay on event sites.

**PICTURE 1**, shows two areas on the event site.

**The RED park** is for equipment trailers, and for event rigging.

**The BLACK park** is for Car's and VAN's, the transformed VANS can park there during the day, but cannot sleep there at night.

Picture 2

**PICTURE 2**, we have published in the event Facebook page, shows the two nearest camping/overnight possibilities.

**FIRST is in the CAMPING TRINDADE**, that have a distance from the Event site, of 700m, and is inside the city of Lagos, that you can do everything by foot, even near big supermarkets. This Camping site, is not the perfect one, but is the nearest one, and have all the infrastructures of a Camping site with good security.

**SECOND option is the MOTORHOME PARK** that is around 2,5km, in the entrance of the city of Lagos, is a little further than the Camping Trindade, but is a straight line to the event site.

Competitors can leave all windsurfing equipment in the warehouse of the club; no need to travel with your equipment from one site to the other.
