

## THIRD DAY

### JY WORLDS CHAMPIONSHIP “MORMAII WAVE PRO 2011”

Lobitos August 5<sup>th</sup> – Junior and Youth World Titles given

Today we started competitions early, with a very tight heat between Zane Schweitzer (USA) and Jonas Handekyn (BEL). They worked very hard to accumulate good score to win the event, and after many good waves, Zane jumped over the next round and Jonas got back to the double elimination.

We had to complete a lot of rounds today with very good action on everyone of them. Juniors made a very big effort during the final rounds. Arthur Job (BRA) loose in his heat, letting Justin Denel (FRA) to advance to the finals and compete in it with Alex Vargas (CHI). During this heat Justin ride very good waves, with good style and with tons of bottoms and cut backs, plus few very good aerials in his best

waves. Alex, did a good job, but in the final Justin performed a bit better. After this, judges decided to call competitors to the stage to give the final results and crown Justin Denel (FRA) the first Junior windsurfing World Champion in Wavesailing. In second place, Alex Vargas from Chile, followed by Arthur Job (BRA) and Alessio Botteri (PER).

The heats continued for Youths with lots of nervous for all competitors. Previous to the final, Christian Saurer (BRA) had to compete with Erick Razzera (BRA) that was coming climbing thru the double elimination ladder with lots of effort. In this heat, both had good waves and good style, but Erick took the biggest waves of the heat and did more radical cut backs in pocket of the wave. With this heat, it was clear that Christian Saurer (BRA)

Alessio Botteri – Junior (PER)

Christian Saurer – Youth (BRA)

had finally reached the third place in the event, and left the final of the Youth division to Erick Razzera (BRA) and Zane Schweitzer (USA).

The Youth final was amazing. Erick worked really hard each bottom turn and each cut back, with lots of power in all the waves. He also did some good aerials that helped him to have a much better qualification of the judges. By the other side, Zane worked really hard in his aerials, he really took big

risks for big aerials, but unhelpfully, in the ones he did the highest ones he lost the control when landing to the face of the wave and falled into the white water. At the end of this heat, judges called both competitors again to the stage to crown Erick Razzera (BRA) as the first Youth windsurfing Worlds Champion in Wavesailing of the history. And gave the second place of this big event to Zane Schweitzer (USA). Third place Youth was given to Christian Saurer (BRA). Amazing how Brazil allocated 2 competitor in the podium on wavesailing.
