C PREVAILING CONDITIONS

Borkum is an island located in the Wadden Sea close to the border between Germany and the Netherlands. It is a tidal venue in the North Sea which can have rough conditions and strong currents.

Typical wind conditions are 10 to 25 knots from mostly western directions.

The temperatures range from 12 degrees at night to 23 degrees during the day.

D RACING AREA

The IFCA Foil & Fin Slalom European Championships offer two competition areas. Racing Area I is on the open sea directly in front of the event venue. The tides may throw strong currents and choppy waves as a challenge towards the riders. This venue may be used for the foil and the fin division.

But for the fin division Borkum island grants a unique highlight (Racing Area II): Allow sandbank is separating a giant „pool“ from the wavy North Sea. About two hours before and after high tide this can be used as alternative area for fin slalom. With the right wind and perfectly flat water we may see some of the most spectacular fin slalom races ever

PRIZE MONEY SPLIT

1. The prize money of 9,000 euros will be divided equally between the foil and fin disciplines.

2. If 5 women or more are entered in a discipline, the prize money in this discipline will be divided as follows:
90% for men
10% for the women
3. If less than 5 women are registered in a discipline, the prize money in this discipline will go entirely to the men.

Rank	perc
1.	50%
2.	30%
3.	20%
